

- **28 (6.7%)** Number enrolled in professional school
- **38 (9.1%)** Number enrolled in other educational program

Most Popular Graduate School Programs in which Graduates Enrolled:

Health Profession and Related Program	39 graduate
Biological and Biomedical Science	18 graduate
Business, Management, Marketing and Related Program	8 graduate
Psychology	7 graduate

Professional School Programs in which Graduates Enrolled:

Health Profession and Related Program : Medicine	22 graduate
Health Profession and Related Program : Other	3 graduate
Legal Profession and Legal Studies	2 graduate
Psychology	1 graduate

Graduates in Employment

Most Popular Industries in which our Graduates are Employed:

Health Science and Healthcare	68 graduate
Teaching or Education	57 graduate
Finance, Business Management and Administration	31 graduate
Human Services	23 graduate
Science, Technology, Engineering and Mathematics	22 graduate

How data is collected:

Data is collected via survey from baccalaureate degree candidates prior to graduation. In November, data on educational outcome is gathered from the National Student Clearinghouse, and via survey, graduates are invited to update their previous survey response if their post-graduation status has changed, though this is not required. Outcome information is also collected from campus community members and from web research.

Some graduates report more than one outcome; that is, continuing their education while also in employment. The numbers above are reflective of this. The percentage in employment only (i.e., those who are not continuing their education at this time) is 78%. Data was collected through December 31, 2023. Remainder graduates were either 1. Not seeking employment, 2. Still seeking employment, or 3. No outcome was available.
