

the Center for Undergraduate Research, now known as Xavier's Center for Undergraduate Research and Graduate Opportunity ([CURGO](#)).

Dr. Giguette continues to work on Xavier programs and grants, currently serving as one of the Principal Investigators for Xavier's NIH-funded Building Infrastructure Leading to Diversity Initiative, Project Pathways ([XULA BUILD](#)). Her current portfolio also includes working with faculty and departments across campus to develop new programs and discipline-specific accreditation issues. She recently led the Career Pathways Initiative, a grant from the United Negro College Fund ([UNCF](#)), funded by the [Lilly Endowment](#). She has also published several articles and has pr/
